Custom Spill Kits

Compact Spill Kits

Over 20 years ago, the Australian Defence Forces approached Spill Station to design Spill Kits to meet the challenging enviroments in which they operate.

If your needs are not met by our standard range, we can customise our Spill Kits to address your requirements.

Variations include:

- Size or type of Spill Kit container.
- House branding.
- Specific spill response capacity.
- Spill Kit components to your specifications.
- Spill Kits to suit your workplace environment.

Mid-Size Spill Kits

Spill Response Trailers

Because the needs of our spill trailer customers and the environments they operate in are so diverse, each spill trailer is customised to provide the best outcome.

Our customers include:

- Mine sites
- Power generators
- Transport companies
- Local Government
