

350L Outdoor Dangerous Goods Storage Cabinet

Store your dangerous goods in a safe, secure and compliant manner with this range of outdoor DG storage cabinets.

Features

- 150mm liquid tight sump to contain any spills.
- ISO locking bars for additional security if storing valuable and/or dangerous liquids.
- Lifting lugs and forklift sleeves for safe transport.
- FRP base grate for maximum strength and chemical resistance.
- Perforated zincanneal shelves to allow drainage to sump.
- Louvre door and rear for maximum ventilation.
- Earth stake and cable included with all cabinets.
- Sump plug to allow controlled draining of accumulated liquids.
- Adjustable shelves at 185mm increments.
- Heavy duty welded steel construction.
- Polyurethane coating for maximum durability in all conditions.
- Neoprene door seal for improved weather resistance.
- All signage attached as required by Australian Standards.
